Risk Reward Ratio CALCULATE YOUR TRADE SIZE

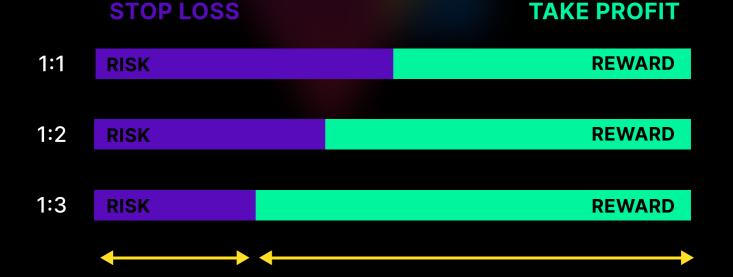

Set a fixed win ratio for your trades and stick to it. You can be profitable even with a negative win rate.

Most traders use a risk reward ratio between 1:5 and 1:2.

- ▶ Don't exit trades too early
- ► Always set your stoploss
- ► Trail stoploss when in profits

Forex Pairs CORRELATIONS CHEAT SHEET

It's good to know which pairs are likely to move together. Inversely pairs can be used for hedge postions
